## Teacher's notes

### Discussion

Students discuss the questions on the worksheet in pairs, groups or the activity can be handled as a whole class, teacher-centered discussion. Students can also mill around the classroom and ask different classmates. Another possibility is to pair the students and let them stand in two lines facing their partners. The teacher asks a question and students discuss it in their pair. Next, students standing in one line move one neighbour to the right and discuss the next question with their new partner and so on..

### Shops

Fold the page where indicated. Students look at the pictures, name the items and say which shop the items can be bought in. Then they unfold the paper to check their answers.
