## **Teacher´s notes**

### **Kim´s game**

Students look at the table with pictures concerning life in the country. Then the teacher gives them one minute to remember what is in the pictures and their position. They turn the table over and are given a table with empty squares. The students now try to remember and write in the squares what was in the pictures. They can work alone or in pairs.

The answers can be checked by showing the table with pictures on a data projector.

### **Follow up activity**

One student looks at the pictures, chooses a word and tries to explain it to their partner without using the root of the word. Then they swap roles.
